WORTHING

SAFETY DATA SHEET

1. Identification

Product identifier Worthington Petroleum Based Soldering Flux

Other means of identification

Product code WC016 Recommended use Soldering flux. Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Manufacturer/Supplier Worthington Cylinder Corporation

Address 200 Old Wilson Bridge Road

Columbus, OH 43085

United States

Email: cylinders@worthingtonindustries.com

Telephone Number: 866-928-2657

CHEMTREC - 24 HOURS:

Within US and Canada 800-424-9300

Outside US and Canada +1 703-741-5970 (collect calls accepted)

2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Acute toxicity, oral Category 4

> Skin corrosion/irritation Category 1B Serious eye damage/eye irritation Category 1

Specific target organ toxicity, single exposure Category 3 respiratory tract irritation

Hazardous to the aquatic environment, acute **Environmental hazards**

hazard

Hazardous to the aquatic environment,

long-term hazard

Category 1

Category 1

Not classified. **OSHA** defined hazards

Label elements

Signal word Danger

Hazard statement Harmful if swallowed. Causes severe skin burns and eye damage. May cause respiratory

irritation. Very toxic to aquatic life with long lasting effects.

Precautionary statement

Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Do not Prevention

breathe dust/fume. Wear protective gloves/protective clothing/eye protection/face protection. Use

only outdoors or in a well ventilated area. Avoid release to the environment.

Immediately call a poison center/doctor. If swallowed: Call a poison center/doctor if you feel Response

unwell. Rinse mouth. Do NOT induce vomiting. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.

Continue rinsing.

Store in a well-ventilated place. Keep container tightly closed. Store locked up. Storage

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Worthington Petroleum Based Soldering Flux 912953 Version #: 01 Revision date: -Issue date: 28-May-2015

3. Composition/information on ingredients

Mixtures

Chemical name	CAS number	%
Petrolatum	8009-03-8	70-75
Zinc chloride	7646-85-7	25-30

Composition comments

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

,

4. First-aid measures

Inhalation Move to fresh air. If breathing is difficult, give oxygen. Do not use mouth-to-mouth method if victim

inhaled the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Get medical attention immediately.

Skin contact Remove and isolate contaminated clothing and shoes. Immediately flush with plenty of water for at

least 15 minutes. Get medical attention immediately. Wash clothing separately before reuse.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if

present and easy to do. Continue rinsing. Get medical attention immediately.

Ingestion If swallowed, rinse mouth with water (only if the person is conscious). Never give anything by

mouth to a victim who is unconscious or is having convulsions. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Do not use mouth-to-mouth method if victim ingested the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Get medical attention immediately.

Most important Causes skin and eye burns.

symptoms/effects, acute and delayed

Indication of immediate medical attention and special

Treat symptomatically.

Dry chemical, foam, carbon dioxide.

treatment needed

General information

Show this safety data sheet to the doctor in attendance.

5. Fire-fighting measures

Suitable extinguishing media

Unsuitable extinguishing

media

None.

Specific hazards arising from

the chemical

Fire may produce irritating, corrosive and/or toxic gases.

Special protective equipment and precautions for firefighters

Firefighters should wear full protective clothing including self contained breathing apparatus.

and precautions for firefighters Fire fighting

equipment/instructions

Move containers from fire area if you can do it without risk.

Specific methods

Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards Will release small amounts of HCL upon decomposition.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Local authorities should be advised if significant spills cannot be contained.

Methods and materials for containment and cleaning up

Stop the flow of material, if this is without risk. Dike far ahead of spill for later disposal. Neutralize with soda ash or sodium bicarbonate. Dilute with plenty of water. Dispose of in accordance with

EPA regulations.

Environmental precautions Prevent further leakage or spillage if safe to do so. Do not contaminate water.

7. Handling and storage

Precautions for safe handling Wear approp

Wear appropriate personal protective equipment (See Section 8). Use only with adequate ventilation. Do not breathe fumes and dusts. Avoid contact with eyes, skin, and clothing. Wash thoroughly after handling. Observe good industrial hygiene practices.

Worthington Petroleum Based Soldering Flux

8. Exposure controls/personal protection

Occupational exposure limits

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Туре	Value	Form	
Zinc chloride (CAS	PEL	1 mg/m3	Fume.	
7646-85-7)				

US. ACGIH Threshold Limit Values

Components	Туре	Value	Form	
Zinc chloride (CAS 7646-85-7)	STEL	2 mg/m3	Fume.	
,	TWA	1 mg/m3	Fume.	

US. NIOSH: Pocket Guide to Chemical Hazards

Components	Туре	Value	Form	
Zinc chloride (CAS 7646-85-7)	STEL	2 mg/m3	Fume.	
	TWA	1 mg/m3	Fume.	

Biological limit values No biological exposure limits noted for the ingredient(s).

Exposure guidelinesUse personal protective equipment as required. Keep working clothes separately.

Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation,

or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. An eye

wash and safety shower must be available in the immediate work area.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear approved safety glasses or goggles.

Skin protection

Hand protection Wear protective gloves.

Other Wear suitable protective equipment.

Respiratory protection

Use a respirator when local exhaust or ventilation is not adequate to keep exposures below the

OEL. In a confined space a supplied respirator may be required. Selection and use of respiratory protective equipment should be in accordance with OSHA General Industry Standard 29 CFR

1910.134; or in Canada with CSA Standard Z94.4.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective

equipment to remove contaminants.

9. Physical and chemical properties

Appearance Reddish brown paste.

Physical stateSemi-solid.FormPaste.

Color Reddish-brown

Odor Slight petroleum odor.

Odor threshold Not available.

PH Not available.

Melting point/freezing point 100 °F (37.78 °C)

Initial boiling point and boiling Not Available

range

Flash point 360.0 - 430.0 °F (182.2 - 221.1 °C)

Evaporation rate Not applicable.

Flammability (solid, gas) Not available.

Upper/lower flammability or explosive limits

Flammability limit - lower

(%)

Not available.

Flammability limit - upper

(%)

Not available.

Explosive limit - lower (%) Not available. Not available. Explosive limit - upper (%)

Not Available Vapor pressure Vapor density Not applicable.

0.9 Relative density

Solubility(ies)

Solubility (water) Not soluble in water.

Partition coefficient (n-octanol/water)

Not available.

Auto-ignition temperature Not Available. **Decomposition temperature** Not available. Not available. **Viscosity**

10. Stability and reactivity

The product is non-reactive under normal conditions of use, storage and transport. Reactivity

Material is stable under normal conditions. **Chemical stability** Possibility of hazardous Hazardous polymerization does not occur.

reactions

Conditions to avoid Avoid contact with incompatible materials.

Incompatible materials Strong oxidizing agents. Chlorine. Turpentine. Potassium. Cyanides. Sulfides. Powdered zinc.

Hazardous decomposition

products

Chlorine. Hydrogen chloride. Carbon monoxide.

11. Toxicological information

Information on likely routes of exposure

Inhalation Corrosive to the respiratory tract.

Causes skin burns. Skin contact

Eve contact Causes serious eye damage.

Harmful if swallowed. Ingestion may produce burns to the lips, oral cavity, upper airway, Ingestion

esophagus and possibly the digestive tract.

Symptoms related to the physical, chemical and toxicological characteristics Causes skin and eye burns.

Information on toxicological effects

Causes burns. Harmful if swallowed. Exposure to high levels of zinc chloride fume may cause Acute toxicity

pulmonary edema.

Components **Species Test Results**

Zinc chloride (CAS 7646-85-7)

Acute Oral

LD50 Mouse

350 mg/kg

Skin corrosion/irritation Causes skin burns.

Serious eye damage/eye Causes serious eye damage.

irritation

Respiratory or skin sensitization

Not classified. Respiratory sensitization Not classified. Skin sensitization

Germ cell mutagenicity No data available to indicate product or any components present at greater than 0.1% are

mutagenic or genotoxic.

Carcinogenicity This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not listed.

Reproductive toxicity Not classified.

Specific target organ toxicity -

single exposure

May cause respiratory tract irritation.

Specific target organ toxicity -

repeated exposure

Not classified.

Aspiration hazard Not likely, due to the form of the product.

12. Ecological information

Ecotoxicity Very toxic to aquatic life with long lasting effects.

Components Species Test Results

Zinc chloride (CAS 7646-85-7)

Aquatic

Crustacea EC50 American or virginia oyster (Crassostrea 0.1511 - 0.2782 mg/l, 48 hours

virginica)

Fish LC50 Rainbow trout, donaldson trout 0.101 - 0.197 mg/l, 96 hours

(Oncorhynchus mykiss)

Persistence and degradability No data is available on the degradability of this product.

Bioaccumulative potential No data available.

Mobility in soil No data available.

Other adverse effects

An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

13. Disposal considerations

Disposal instructionsDispose waste and residues in accordance with applicable federal, state, and local regulations.

Local disposal regulations Dispose of in accordance with local regulations.

Hazardous waste code D002: Waste Corrosive material [pH <=2 or =>12.5, or corrosive to steel]

Waste from residues / unused

products

Dispose in accordance with all applicable regulations.

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is

emptied.
